EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specifications

On page 3, line 8, insert "the" before "silicon film".

On page 4, line 16, after "on", delete "said", and insert instead "the".

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The closest prior art of record, Kato et al., US Patent 5,589,406 in view of Hasegawa Patent Application Publication US 2004/00026738, fails to show, forming a polysilicon spacer on either side of the dog-bone shaped portion of the active layer by, first dry etching the second amorphous silicon film on the active layer and recrystallizing the second amorphous film to form a polysilicon spacer. In addition, by recrystallizing the second amorphous film, large silicon grain structures in the active layer are formed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
